Conflict Minerals Policy

Kabelwerk Eupen AG supports all efforts to prohibit the illegal trade with conflict minerals. For this we refer to the EU Conflict Minerals Regulations, published on May 19, 2017 and taking effect on January 1, 2021. Its intention is that raw materials like tin, tungsten, tantalum or gold should not be sourced from the conflict regions, thereby withdrawing the financial basis for wars and conflicts in these regions.

Kabelwerk Eupen AG cooperates only with suppliers who source their raw materials or materials in an ethical manner.

Based on the restrictions for using "Conflict Minerals", we request from our suppliers transparency and open communication regarding source and procurement of their materials.

Therefore, we declare that all of the components manufactured and delivered by Kabelwerk Eupen AG have to be seen as "conflict free" until further notice.
